

## VCE English Mini-Method

In 2023, VATE’s Mini-Method program will support teachers undertaking the new Study Designs for English, English as an Additional Language and Literature to be implemented in classrooms from Term One, 2023, and English Language to be implemented in Term One, 2024. The Mini-Methods are designed to support teachers’ understanding of the implications of the new Study Designs, provide an opportunity to upskill in content-specific knowledge, as well as assist with the planning and preparation involved with the VCE Englishes courses. The Mini-Method programs are suitable for those teaching VCE Englishes for the first time, and more experienced teachers who are looking to enhance their understanding of the new Study Designs. Registration also includes access to the recordings of the workshops, and any notes or resources that presenters make available. Details and online registration available on the [VATE website](https://www.vate.org.au).

### Registration

To support members’ participation in the Mini-Method program, all sessions are delivered online via Zoom.
